ANOTHER BLAST FROM THE "PENNY WHISTLE."

The hired hack of the Wharf street pedlars, published at Yale, has once more bored his limited circle of readers upon the subject of "Union and the Capital," in which he loses sight entirely of the main question while laboring to cast odium upon Governor Seymour, because he did not, as the titillating news-monger at Yale has done, become the pliant tool of the political sharpers, the Wharf street jobbers, and the horde of land-grabbers who, in the halcyon days of the Douglas regime, not only controlled the destinies of this Colony but pilfered its treasury, the better to enable them to force the trade of British Columbia out of its natural channel and concentrate it at Victoria. Because Governor Seymour, almost immediately upon the assumption of the reins of Government, perceived the game which had been played and took steps to check it, he is charged by this hiring trumpeter with having "imbibed their (i. e. the people of this Colony) selfish prejudices, and given himself up to be their miserable tool," and hence, in the opinion of this exported specimen of a Victoria scribbler, he is "destitute of the high qualities to enable him to preside over the destinies of these Colonies with advantage or credit to either himself or the people committed to his charge." We think it would be paying much too high a compliment to the writer of the above quotation seriously to undertake to defend the policy or person of Governor Seymour from the scurrilous attacks of so disreputable a rag, as that in which it appears. His reputation as a careful, prudent, and constitutional ruler is in no way endangered by such trumpety blasts from the Yale trumpet, and consequently we shall not waste time or space in an attempt to shield him from their harmless effects. But in this heaping abuse upon Governor Seymour, and employing all the little talents he possesses, in the work of sowing the seeds of discord and dissatisfaction in the minds of the people of British Columbia, he is only doing that for which he is specially employed as a delegate from the neighboring Colony. Last year his field of operation was in Cariboo, where he labored to win over the "bone and sinew" of the country—the miners—to the standard of his employers; but he overstepped the mark—his object was so transparent and his scurrility so low that even the miners turned from him with feelings of disgust; and having thus signally failed in his mission, and, in miners' parlance, "played himself out" in Cariboo, he was only too glad to dispose of his printing plant at a heavy sacrifice and return chop-fallen to Victoria. It is not difficult to foresee that this Yale speculation will come to a like disastrous conclusion. It is impossible that a respectable community like that of Yale can for any length of time tolerate in their midst an institution which feeds upon falsehood, is destitute of talent, the hired organ of an unscrupulous clique of tricksters in another Colony, who seek an alliance with this Colony only to save themselves from destruction, and who is devoting his utmost energies to place the necks of the people of Yale, in common with the entire population of British Columbia, under the heels of the Victoria faction, as in by-gone days. In openly advocating the claims of Victoria to be made the capital of the United Colonies, the editor of the *Tribune* has revealed himself in his true character, and the people of Yale now know what they must expect from the labors of the gentleman in their midst, who assumes to speak the sentiments of the inhabitants of that locality. Leaving New Westminster and its "lot owners" entirely out of the question, we would ask is Victoria the only, or even the most, eligible site for the capital of the United Colonies? Would Yale itself not be a much more

central position? But Yale would not suit the *Tribune's* employees any more than New Westminster, for their interests lie in neither place, but in Victoria, and hence it is that the *Tribune* would sacrifice both Yale and New Westminster, yea, British Columbia as a whole, that Victoria might profit thereby and be rescued from that gulf of commercial ruin into which she is just now about to take a final plunge. The people of Yale are not strangers to the inconvenience of having Victoria as the seat of Government. They have not yet forgotten the loss and expense they have been subjected to in having to visit that place for the transaction of business with the Governor and the various heads of departments. No people in this Colony were louder in their complaints against that arrangement than those of Yale; and we opine that it will require arguments much more convincing than anything that has yet appeared in the columns of that hiring sheet to cause them to seek a renewal of that system which, under Governor Douglas's administration, proved such a tax upon their time, such a drag upon their pockets, and such a fruitful source of annoyance and inconvenience.

SATURDAY, JULY 28, 1866.

THE PRESENT CRISIS.

New countries as well as old are subject to crises in their commercial affairs, sometimes the result of over-trading beyond the capacity or wants of the people, sometimes the result of reckless speculation in stocks and real estate, and not unfrequently the result of adverse circumstances over which the people can exercise no direct control. It is therefore not so much a matter of surprise that British Columbia has not proved an exception to the general rule, and that the people of this Colony are just now passing through a commercial crisis which threatens the solvency of our most staunch and prudent business men and cripples every department of trade. Over-trading has doubtless had much to do in bringing about this unhappy state of affairs, but we cannot attribute all our misfortunes to this circumstance alone. Adverse circumstances as well as unwise investments in mining speculations have also contributed to this result; but there is still another cause to which it may, in a great measure, be attributed, and that is a very general disinclination on the part of the people to engage in any other industrial pursuit than that of mining. Of all pursuits in which men do engage, gold mining is at once the most hazardous and least profitable, taking into account the aggregate of those who follow it for a livelihood. Not one in a thousand obtains a competence, while thousands have proved, by a dear-bought experience, the truth of the proverb that "he that maketh haste to be rich shall pierce himself through with many sorrows." There are hundreds of men in this Colony to-day who have spent years of hard toil and endured the severest privations in a fruitless pursuit after gold, who, had they devoted the same amount of time and patient industry to the cultivation of the soil, or in some one of the many other branches of industry that are open to men of stout hearts and willing hands, would have been not only much better off in a pecuniary point of view, but have escaped many of those privations and hardships which have undermined their constitutions and made them prematurely old. A country like British Columbia, possessing a genial climate, a productive soil, with timber, fish, coal, and various other resources, offering a wide and inexhaustible field for labor and the investment of capital, ought not to be dependent upon gold mining alone for its very existence. The fisheries of Fraser River to-day offer a speedier and surer and better paying field of labor to the sober and industrious working man, with small means, than Williams Creek or any other gold-bearing creek in the whole Cariboo District. And where will men find in any country such an opening for agricultural or pastoral pursuits as is presented to them in British Columbia? With hay at \$20 and \$25 per ton, wood \$3 and \$4 per cord, cattle, sheep and hogs 10 to 12 cents per lb. on the foot, potatoes 1 1/2 to 2 cents per lb., eggs 75 cents per dozen, butter 50 to 62 cents per lb., and every other product of the farm at correspondingly high prices, and a ready market for them all, what is to prevent men from realizing a handsome profit upon their labor by a proper attention to business? It seems most astonishing that, in the face of these facts, men should manifest such a disinclination to engage in pursuits which promise so handsome a reward, and prefer year after year to follow the ignis fatuus of gold mining, only to return at the close of each season poorer if not wiser men. The mining population are commonly, and we think erroneously, styled "the bone and sinew of the country." That they constitute a valuable adjunct in the work of developing the resources of the country, we readily admit; but that they are of paramount importance to all other classes of our producing population, we do not believe. As a rule they are unsettled and migratory in their habits, having no permanent interest in the country, and liable at any moment to be carried away by some new discovery that may be made in other and distant auriferous regions. It is not so with any other branch of industry; and hence the man who settles down upon the soil to cultivate it, or to develop any of the many other of the country's

latent resources, is of infinitely greater value thereto, as regards its future welfare and prospects, than any number of men whose sole aim is to search after the hidden treasures of our mountains and rivers, and, whether successful or otherwise, finally pull up their stakes and leave it. The "bone and sinew" of any country are those who become permanently attached thereto, either as producers of the raw material or as manufacturers, and until such time as we obtain a population of this description, it is useless to expect anything like permanent prosperity, or hope to see the country make that progress in commercial wealth and importance which, in view of its favorable climate, geographical position, and boundless resources, we would be justified in anticipating.

WANT OF CONFIDENCE.

The breach between Governor Kennedy and the Legislative Assembly of Vancouver Island, is daily becoming wider, and a complete dead-lock in the machinery of that Government appears inevitable. For some months past the game of "snail" has been carried on between them, the Governor taking the lead, and never allowing an opportunity to slip of manifesting his contempt for the people's representatives. As like begets like, so the Assembly have retaliated upon the Governor, until the squabble has culminated in an almost unanimous vote of want of confidence in the Governor by the Legislative Assembly, and a request to the Imperial Government for his removal. The following resolutions were moved by Mr. McClure, who observed that "The Governor had lately given a proof of his contempt for the House by refusing to allow a 'salaried officer to appear before a committee to give evidence. Instead of following out the well understood wishes of the people, he had taken up a hostile position against the popular branch of the Legislature, and after exercising 'the greatest forbearance, it became a duty the House owed to its constituents to express its utter want of confidence in the Governor'."

1. The House is reluctantly compelled, after much patience and forbearance, to declare that His Excellency, Governor Kennedy, is acting in a hostile manner to the best interests of the colony.

2. That he has and does persistently decline to impart to the Assembly necessary and desired information on matters connected with the expenditure of the public money.

3. That he obstructs the efforts of the Assembly to reduce the expenses of Government, which are far beyond the capacity of the inhabitants to bear.

4. That he refuses to permit public officers to appear before a select committee of the Assembly to give evidence as to the working and management of their departments.

5. And that he endeavors by unjustifiable statements to place the Assembly in a false and undignified position before Her Majesty's Government.

6. In view of these facts, the House cannot, in justice to the Colony, to Imperial interests, and to itself, refrain from expressing its utter want of confidence in His Excellency Governor Kennedy and his official advisers, and the absolute necessity there is for their removal, believing that so long as the present administration lasts the Colony will continue to suffer by the gradual exodus of its population, and Imperial interests will continue to be affected in an injurious manner by the prejudice which the present Government has created against British institutions in the North Pacific.

FROM VICTORIA.—The steamer Alexandria, Capt. Swanson, arrived from Victoria on Thursday evening, with a few passengers and about 45 tons of freight. From our files of Victoria papers, we glean the following items of local news:

The Rifle Volunteer corps, 90 strong, have taken to the "tent field" for a while, in order the better to prepare for a successful resistance of the Fenians, should they be so foolhardy as to attempt the annexation of the "England of the Pacific" to "Republican Ireland."

The Chronicle says, "We learn that E. T. Dodge, of British Columbia, has offered to compromise with his creditors." The old fogies who compose the Legislative Council, have thrown out the Franchise Bill. A Chinaman has been arrested and thrown in jail on a charge of having committed an indecent assault upon a child only five years old. On Monday night a man named Edward Urin, a Cornishman, was brutally murdered by some person or persons unknown. He was discovered lying in a clump of fern bushes by the Hon. Allen Francis, U. S. Consul, in a perfectly nude state, and shockingly mutilated. Several Indians have been arrested on suspicion of having been concerned in the foul deed, the coat worn by deceased the day before the murder having been found upon one of them. A discovery of bituminous coal is reported to have been made in the Comox district.

GONE NORTH.—His Excellency the Administrator of the Government, and suite, left on the Reliance yesterday on a tour to the interior of the Colony. He purposes visiting the Cariboo District, and will thus have an opportunity of personally investigating the grievances of which the mining community have of late so loudly complained, and will consequently be in a better position, when he returns, to suggest a remedy. We wish His Excellency a pleasant trip and safe return home again.

"HOME GUARDS" VOLUNTEERS.—At a meeting of this company on Monday evening, convened for the purpose of adopting rules and regulations for the guidance of the company, and the election of non-commissioned officers, the following gentlemen were elected, viz: Quartermaster Sergeant, Robert Dickinson; Sergeant, Thos. E. Ladner; 2d Sergeant, George Black; Corporal, James S. McMillan; 2d Corporal, R. Seabrook; 3d Corporal, Harry Hyde. George Serimager was elected Bugler to the company. A committee consisting of Messrs. McMicking, McBean, Graham, Armstrong and Dickinson was appointed to make out a code of rules and regulations.

A CHALLENGE.—The New Westminster Cricket Club sent a challenge the other day to the Victoria Club to play a match on the New Westminster ground, some day this week. An answer was returned that the challenge could not be accepted for this week, but that arrangements would be made to play a match some time in August.

CRICKET.—A return match will be played to-day on the cricket ground between the Town Eleven and the Civil Service Eleven. Wickets to be pitched at 11 o'clock.

UP RIVER.—The steamers Lillooet and Reliance left for Yale and intermediate ports yesterday, about noon, with freight and passengers.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EUROPEAN.

NEW YORK, July 23.—The Scotia, from Liverpool 24th, arrived this evening.

Consols closed at 86 3/4 and 86 1/2 for money; 5-20's 67 1/2; cotton on Friday was more active in prospect of peace. On Saturday the market was dull; it closed steady and a little easier.

Accounts of French mediation were conflicting—nothing authentic has transpired. The threatened armed intervention is not confirmed; but French vessels have gone to Venetia.

The Times declares that England should not follow France in an intervention that tends to aggravate the evils.

The Prussians were still advancing on the road to Venetia, their headquarters being at Savitini, with their vanguard reported at Suana.

London papers regard the Prussians within from 8 to 10 days march of Vienna, with no great obstacle to overcome. Benedek's army was rapidly reorganizing. On the 11th it mustered 160,000 men, exclusive of cavalry and artillery. Gen. Caidini has occupied Padua, and the Austrians are concentrating their forces for the protection of Tyrol and Illyria.

The Paris Matin says, peace negotiations are still progressing. The best of feeling prevails between France and Austria.

The Vienna Presse of Saturday evening says that Napoleon's mediation is ended for the present, and that Austria must trust to her own strength and resources. She is resolved to make the most strenuous exertions to maintain her position as a great power.

The Birmingham Banking Co. had suspended on the 14th; liabilities over two million pounds. This has proved a severe calamity for a Birmingham House.

Very latest from Paris reports the Bourse firm; rents 68f. 60c.

The telegraph fleet arrived off Valencia on the 13th, and the cable was successfully spliced to the shore end. Signals have been sent through the cable. The Great Eastern commenced paying out; 134 miles had been laid. Last accounts state that the signals were perfect.

CALIFORNIA.

SAN FRANCISCO, July 26.—The steamer Orizaba, forty-nine hours from the Columbia river, arrived this forenoon. No later gold quotations being received, the market fell. Legal tenders were quoted at 71 buying, and 71 1/2 selling.

Sailed.—British ship Cormorant, Spool ship Coquimbó, Port. Madison; bark Live Xankee, Port. Sound.

Arrived.—bark George Washington, 11 days from Freeport; bark Annie Sharp, 157 days from Glasgow.

Sailed.—ship Windward, Hong Kong; ship Asia, Toulon; bark Rival, Victoria.

OREGON.

PORTLAND, July 26.—The steamer Montana arrived from San Francisco this afternoon. The Orillame is advertised to leave for the bay on Saturday morning and the Montana on Saturday evening.

CHINA.

SAN FRANCISCO, July 25.—Ship Silas Grennan, 50 days from Hong Kong, arrived this morning.

Hon. W. M. Pinnie is appointed Acting Colonial Secretary for Hong Kong. The coolie ship Jeddo was destroyed by fire off the Java coast on the 16th of April. A mutiny had previously occurred; ten men had been flogged and put in irons.

The chief mate, one apprentice and 40 emigrants were lost.

British ship Denmark, from London to Hong Kong, stranded on Yashal Island May 25th. It is not known whether the crew was saved or not.

The expedition against the pirates on the west coast, by British gunboats had been very successful. On their arrival at Linton, the rendezvous of the pirates, the people fled. The Chinese soldiers then went ashore and burned the deserted houses. The expedition then penetrated to Nansen, when Lieutenant Manning landed with a small force and suddenly a masked battery of 12 guns opened on him, but after a sharp engagement he silenced and took it. This is about the first time the pirates have been successfully met in their own haunts.

The bark La-Belle, which cleared from here January, 13th was wrecked.

The Bremen bark Belle, under command of Captain Tobias, on her passage from San Francisco to Hong Kong, with a cargo valued at \$300,000, was cast away on the 4th of March, on an uninhabited and dangerous reef called Wake Island. The passengers and crew remained on board during the night, the sea breaking fearfully over the wreck all the while, and landed with difficulty through the breakers on the following day. After an ineffectual search for water and much privation, it became imperative to take to the boats, taking such provisions and water as were saved from the wreck. All the passengers were transferred to the ship's long boat, in charge of the first mate, the captain preferring his gig, and on the 27th both boats sailed for the Ladrone or Marina Islands, 22 persons with provisions, in an open boat but 22 feet in length, to undertake a voyage of 1,400 miles, subject to occasional storms, calms, and a tropical sun; on short rations, on an ocean studded with hidden rocks and coral reefs. The captain with eight persons in the small boat which left at the same time has not been heard from, and unless picked up by some chance vessel, must have been swamped, as a heavy crisp sea was met with shortly after leaving the Island. Among the passengers were Madam Anna Bishop, Miss Phelan, Mr. Shultz, Charles Lascelles, of the celebrated English Opera Troupe, E. M. Van Reed, of Kanagawa. A schooner has been sent to search for the missing boat among the Islands to the northward, and to return to Wake Island, and remove a large amount of treasure which was saved and buried there.

CARIBOO.

From Cariboo Sentinel, July 19.

COURT OF ASSIZE.

An adjourned sitting of the Court of General Assize and jail delivery for Cariboo east will be held at the court house, Richmond, on Wednesday 25th inst.

Mr. James Mann has taken the contract to lay the Raby Co's flume, which has to be finished within one month from date.

A Chinese washerman died on Monday last, in Barkerville. This, we believe, is the first instance of a Chinese death in Cariboo. His friends buried him after the fashion of his country in Richmond grave yard.

WILLIAMS CREEK, July 23.—A great many claims are doing well on this creek. Adams Co. washed up over 100 ounces; the dividend amounted to \$100 to the share.

LOWER CREEK.

The Sage Miller Co. have been making \$50 a day to the hand, and several are doing fully as well.

LIGHTNING CREEK.

It is said by good authority, that a company of nine Chinamen, at work on this creek about five miles below the Edwards Ranch, took out last week \$70 a day to the hand.

Messrs. Meacham & Combs, the proprietors of the saw mill in Stout's Gulch, have purchased the engine and machinery of the steam saw mill at Quesnelmouth. It is the intention of the owners to erect this mill at the mouth of Mink Gulch, about three-quarters of a mile above Richmond. The mill will be capable of turning out 10,000 feet a day, and will be in working order by the first of September next.

Borealis Co. vs. Watson Co.—A hearing of this case was set for Thursday last. On the case being called, the counsel for the plaintiff objected to its being heard, on the ground that a contempt had been committed by defendants in not executing a deed of conveyance to plaintiffs, as required of them by an order issued from the Court of Chancery, and until this contempt was purged he urged that defendants were barred from having any hearing in court. When defendant's counsel rose to answer the objections made, his honor the Chief Justice got in a passion, and shutting up his books hastily left the court without making any remarks.

THE GOVERNORSHIP OF JAMAICA.—Some misconception, says the London Dispatch, has prevailed, respecting the governorship of Jamaica. Mr. Rawson has not been appointed as successor to Sir Henry Storks in Jamaica, as has been stated by a generally well-informed contemporary. The mistake seems to have arisen from Mr. Rawson holding a dormant commission to act as Governor of Jamaica under possible contingencies.

He who is a tiger in his own family is generally a sheep in society.

To the Editor of the British Columbian.

Sir,—I am not in the habit of writing articles for newspapers, but I should esteem it a favor if you would permit me through your columns to endorse the sentiments expressed by "A Taxpayer" in one of your late issues, relative to the existing state of things on Merchant Square. The inhabitants of this part of the city have for the last two years had to put up with what "Taxpayer" very properly designates "an intolerable nuisance." Not only have all persons passing through that locality, and residing in the vicinity, to endure the almost unbearable stench emitted from fish and other garbage, but they have daily to witness the most disorderly conduct. On Sunday last, about one o'clock, as I was returning from divine service, a crowd of Siwash were collected to witness the antics and ravings of a drunken klookman, and on Monday two klookmen were drunk and fighting. Such scenes as these, and much worse, are of frequent occurrence. You were kind enough to say in your remarks on "Taxpayers" letter "it is clear that if the encampment alluded to can be proved to be a nuisance, the Magistrate is bound to take measures to abate such nuisance, and we would recommend our correspondent to test the point." Of course, I cannot tell what Taxpayer's mind may be on the subject, but I cannot see why any private individual should be put to the trouble and expense of performing duties which unquestionably belong to a public body. The encampment alluded to, is known to be "an intolerable nuisance." Abundance of evidence of the fact could be obtained if necessary. Much more could be proved than it would be prudent to publish.

I am sir,

W. D. FERRIS.

New Westminster, July 25, 1886.

BISHOP COLENSO AND THE SEE OF NATAL.

The news from Natal by the Cape mail, just arrived, is so far as ecclesiastical matters are concerned, more unsatisfactory than ever. There was nothing but wars, and strifes, and wranglings on every side. There were appeals to the courts and interdicts, and orders to reply to them, right and left. The Bishop had got the Dean interdicted from holding service in the Cathedral on Good Friday morning. The Dean on Easter Tuesday, at an excited meeting for the election of churchwardens, suddenly dissolved the assembly, which, however, would not be dissolved in obedience to him, and the meeting went on amidst confusion and uproar; half the members voted, and the other half refused to have anything to do with the business. An address had been got up to the Metropolitan, asking him to cease meddling or interfering with the diocese at all. A counter address had been got up to the Dean, expressing the fullest sympathy, and promising energetic aid in his proceedings. A telegram forwarded from Pietermaritzburg, just as the steamer was leaving, stated that the quarrel had at length resolved itself into a very literal contest about the keys. The Court had ordered possession of the Cathedral to Bishop Colenso, and having further enjoined the Dean to deliver up the baptismal registry. The Colensoian party took possession by forcibly opening the church doors, wrenching off the locks and substituting their own. The other side returned the compliment by wrenching off these new locks, and thus the wrangle was proceeding. The paper war between Dr. Colenso and the Dean was also maintained in the local press.

The gentleman selected to fill the "vacant" see is the Rev. F. H. Cox, B. A., minister of the church of St. John the Baptist, Hobart Town. Mr. Cox was ordained in England, and held the curacy of Leping, near Midhurst. About twenty years since he went to Van Dieman's Land, and has officiated at Hobart Town since that time. He is to bear the title of "Bishop of Pietermaritzburg," the chief town of the Colony of Natal. The Colony will thus have the advantage of possessing two Bishops—one nominated by the Canon and the other by the Metropolitan, and each claiming episcopal authority over the clergy. The new Bishop designate is a High Churchman.—English Paper.

IS LAW.—A lawyer went into the shop of an outfitter, and inquired for some waistcoats. Some were placed on the counter. The lawyer pleasantly observed that he would take it out in law. "You may take it out in law," replied the tailor, "and pay my brother-in-law."

How to do it.—Stuttering Ben, who was toasting his shins, observing that the oil merchant was cheating a customer of some oil, called out to him, "Jim I can't tell you how to sell twice as much oil as you do now." "Well, how?" growled Jim. "Fill your measure."

Of all the notable things on earth, The queerest one is pride of birth, Among our "ferce democracy" A bridge across a hundred years, Without a prop to save it from sneers, Not even a couple of rotten piers, A thing for laughter, flurs and jeers, Is American aristocracy.—Saxe.

RIFLE SHOOTING.—The simultaneous match between the Rifle clubs of England, Scotland and Ireland was fired last week by selected squads of five men at the ranges 890, 900 and 1,000 yards, ten shots at each. The following are the principal scores:—Barton Moss Club (Manchester), 508 marks; Altcar Club (Liverpool), 495; Surrey Club, 485; Bristol, 457; Altcar (2d), 450; Ulster Association (Belfast), 426; Dublin Club, 425; Edinburgh Club (four men), 265. In the match between battalions the 3d Manchester scored 496, and the Ayrshire 477. The following were the highest individual scores in the 27 squads entered:—Captain Turner (Manchester) 2108; Guthrie (Ayr) and Captain Heaton (Manchester), 107; J. Cunliffe (ditto), 106; Rawson and Baggalay (Altcar), 104; Captain Paton (Ayr), 103; Ensign Pixley (Victorias), and Eden (Inns of Court), 102; Sprout (Liverpool), 101; Ensign Radcliffe (South Middlesex), Holt (Altcar) and Captain Jacques (Surrey), 100. It is believed that the score made on this occasion is the highest ever made by the same number of men in any rifle match.

A NEW LETTER.—"What is that?" said the Sunday school-teacher, pointing to the letter O. "Dun no," said the urchin. "What do you say when you stamp your toe?" continued the lady. "Darn it," was the precocious youth's reply.

"I suppose," said a quack, while feeling the pulse of a patient who had reluctantly submitted to solicit his advice, "I suppose you think me a bit of a humbug." "Sir," gravely replied the sick man, "I was not aware till now that you could so readily discover a man's thoughts by feeling his pulse."

A gentleman advertises for a horse, "for a lady of dark color, a good trotter, and of stylish action." The horse, "must be young, and have a long tail about fifteen hands high!"

"Shall I cut the joint of mutton saddle?" "No," was the reply, "cut it bridleside, for then we may get a bit in our mouths."

How to do it.—Stuttering Ben, who was toasting his shins, observing that the oil merchant was cheating a customer of some oil, called out to him, "Jim I can't tell you how to sell twice as much oil as you do now." "Well, how?" growled Jim. "Fill your measure."

IS LAW.—A lawyer went into the shop of an outfitter, and inquired for some waistcoats. Some were placed on the counter. The lawyer pleasantly observed that he would take it out in law. "You may take it out in law," replied the tailor, "and pay my brother-in-law."

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these famous Pills, which strengthen the system, by thoroughly cleansing the blood from all impurities. They cause disorder of action, regulate the course of circulation, and restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaint

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for biliousness and liver complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are permanent and extensive, and the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regulate the secretions, and purify the blood. Verily, so, diseases of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every case agency peculiar to the life of women, youth, full or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the system, which they purify, the Ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first signs of asthma have appeared, these Pills will be relied on as a certain and ever-failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat and morning.

Indigestion—Bilious Headache.

These complaints may sometimes be considered trifling but should be borne in mind that, by their continuation and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvements, though it may be gradual, will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague, Female Irregular, Scrofula, or King's
Asthma, Itis, Evil.
Bilious Com- Fevers of all Sore Throats,
plaints, Kinds, Stomach and Gland,

CURES AND COMFORT FOR THE BED-RIDDEN
—BY—
HOLLOWAY'S OINTMENT.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers, and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and therefore promotes a sound and permanent cure.

Gout and Rheumatism.
To sufferers from the excruciating pains of Rheumatism and Gout this Ointment will prove invaluable. After some application with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, and restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds.
This class of disease may be cured by well rubbing the Ointment, three times a day, upon the throat, chest, and back of the patient. It will soon penetrate and give immediate relief, in all stages of Influenza, and Bronchitis. This treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Curvy.
This Ointment is a certain cure for Ringworm, Scrofula, or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more efficacious remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swelling.
Beware of this dangerous and stealthy complaint, which frequently creeps upon us by slight uneasiness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach; therefore, set to work earnestly, by taking Holloway's famous Pills according to the printed instructions, and rubbing the Ointment very effectively over the pit of the stomach and right side, where these organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Files, Fistulas, and Internal Inflammation.
These complaints are most distressing to both body and mind. False delicacy concealing them from the most intimate friends. Persons suffer for years from Files and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone. The Pills greatly purify the blood, regulate its circulation, renew diseased structures, and invigorate the whole system.

Disorders of the Kidneys, Stone and Gravel.
Are immediately relieved and ultimately cured if this Ointment be well rubbed, twice a day, into the small of the back, over the region of the kidneys, to which it will gradually penetrate, and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Chapped hands, Scalds,
Bad Bruses, Stiff joints, Sore throats,
Burns, Stiff joints, Sore throats,
Bunions, Elephantiasis, Skin diseases,
Bile of Mole's toes, Ringworm, Scrofula,
and Sand-flies, Gout, Sore-heads,
Coco-bay, Glandular Swellings, Tumors,
Chicago-foot, Lumbago, Wounds,
Corns (soft), Piles, Yaws,
Cancers, Rheumatism.

Sold at the establishment of PROFESSOR HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 12d., 2s. 6d., 4s. 6d., 11s. 22s., and 38s., each Pot.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

"Cariboo Sentinel."

THE Undersigned, Proprietors and Publishers of the "CARIBOO SENTINEL," in announcing to their friends and the public that their arrangements have been completed for issuing the first number on or about the first day of May next, would most respectfully solicit a continuance of the patronage and support heretofore bestowed on them.

While intimating their determination of publishing twice, instead of once a week as formerly, the undersigned would draw attention to the very efficient postal system now established throughout British Columbia, which will enable them to forward the "Sentinel" to nearly every Mining Camp in the Colony, particularly to the newly discovered Mines on the Columbia, from whence they will be in constant receipt of the latest and most reliable intelligence, thus rendering the columns of their paper a most desirable medium of publicity for the business public.
